

2018 MILLAGE MEETING NOTES

Estimated costs:

- Crack seal averages \$6,500/mile
- Chip seal (22' wide road) is \$24,000/mile
- Fog seal (22' wide road) = \$2,500/mile
- Slurry seal (22' wide road) = \$38,000/mile
- HMA resurfacing (2" overlay) - \$100,000 – \$120,000 depending on width
- Roadside mowing = \$14.94/mile per side (townships that utilize another contractor or do their own mowing may be reimbursed at our contracted rate)
- Gravel resurfacing @ 1,000 cyd/mile = \$12,000 for 22A Modified (\$19,000 for 21AA)

Work Orders:

- Reconstruction in October for the following construction season
- HMA immediately following your February township meeting
- Preventative maintenance work (crack seal and chip seal) immediately following your March township meeting
- Gravel immediately following your March township meeting
- Mowing (third round) and dust control work orders will be sent based on last year unless you let me know something different.

New Policy

- The Board of Road Commissioners recently approved a new policy they have been discussing and developing over the past two years. The intent is to share a portion of the new transportation funding with the townships for work on the local road system.
